

### Café Menu:

One purpose of A'nu Cafe is to one day open and serve some of the best food in the area, as well as serve a variety of dishes from around the world. We will have a menu that is suited for our community, with healthier choices and an advanced menu selection.

The menu will have a simple, healthy selection for the cafe that can be served either hot or cold with simple modifications. A combination of sandwiches, desserts, drinks and other meals would be offered and prepared with simple grilling and heating appliances (e.g. microwave, burners, warmers, or industrial grill/warmers). A deep fryer or stove top will not be necessary for the preparation of these foods. Below is the regular daily menu. Check back often to see the update of our cultural menu dishes of the month.
